

Applying changes 1

Have a go

For each question, apply the changes shown in the first chain of shapes to complete chains (a) and (b) in the same way.

Test yourself

Look at the two pictures on the left connected by an arrow. Decide how the first picture has been changed to create the second. Now apply the same rule to the third picture and circle the letter beneath the correct answer. For example:

Score / 4

Try it out

Complete these questions by creating five possible answer options for each one. Then ask a friend or parent to try them. You can add more detail to the shapes provided if you wish.
