

Applying changes 2

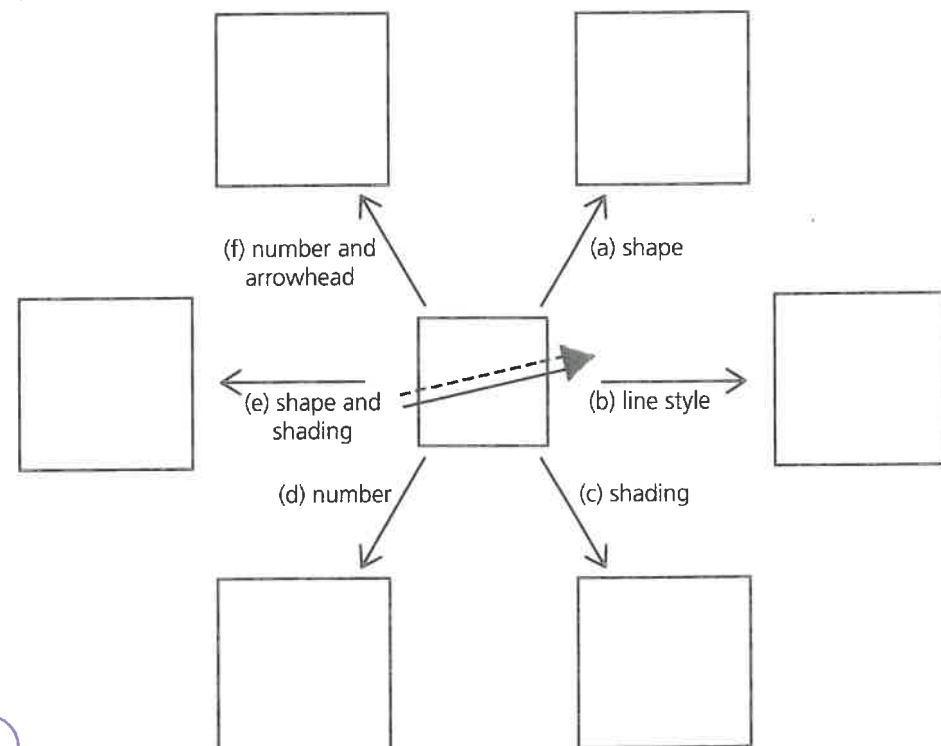

Have a go

- 1 Identify what changes have been made to the central picture that has resulted in each of the pictures around it. Write what has changed.

- (a) _____ (d) _____
 (b) _____ (e) _____
 (c) _____ (f) _____

- 2 Using the instructions written next to the arrows, change the central picture to give six new pictures around it.

Test yourself

Look at the two pictures on the left connected by an arrow. Decide how the first picture has been changed to create the second. Now apply the same rule to the third picture and circle the letter beneath the correct answer. For example:

Score / 4

Try it out

Draw a second pair of patterns to go with the first pair, where the first part of the second pair is changed in the same way as the first part of the first pair.
