

Following the folds 2

Have a go

Draw the pattern of holes that will be seen when these folded sheets of paper are unfolded. The fold lines are shown as dashed lines to help you.

5

Test yourself

The square on the left is folded in the way indicated by the arrows, and then holes are punched where shown on the third diagram. Identify the answer option that shows what the square would look like when it is unfolded. Circle the letter beneath the correct answer. For example:

a b c d e

1

2

3

4

Score / 4

Try it out

Use dashed lines to show how to fold this sheet of paper so that punching just one circular hole will give this pattern when the paper is opened out.
