

Sequences 2

Have a go

Questions 1 and 2 contain sequences with three elements missing. Work out the pattern and then draw the missing elements.

1

2

The next two questions contain a sequence with two alternating patterns. One pattern is missing from each sequence. Identify the missing pattern from the four options provided and circle the letter beneath it.

3

4

5 Continue the sequence by drawing the next three patterns in the sequence in the boxes provided.

Test yourself

The five boxes on the left show a pattern that is arranged in a sequence. Choose the answer option that completes the sequence when inserted in the blank box. Circle the letter beneath the correct answer. For example:

1

2

3

4

Score / 4

Try it out

Continue these two identical sequences in different ways. Draw the next two shapes in each sequence in the boxes provided.
