This activity facilitates consolidation of the following school curriculum subjects:
Geography & Science

February 2021

Birds will love this feeder at this time of year now their supply of berries are scarce.

You will need

An apple
An apple corer
A stick
String
Sunflower seeds

The birds will use the stick as a perch whilst they nibble on the seeds and apple!

Method

1. Ask an adult to help you to core the apple.
2. Poke sunflower seeds into the apple, all the way around.
3. Poke some string through the core.
4. Tie one end onto a stick and a loop into the other end ready to hang to a tree.
