Spike's Matchbox Hunt

Ask
an adult for an empty matchbox.
(Remember, never play with matches.)
If you haven't got a matchbox, can you use a similar sized container instead?

- Your challenge is to hunt for tiny items to fit inside.
- How many items can you squeeze inside of your matchbox?
- The match box must be able to close properly!

You could list all of the items you fit inside below...
