

This activity facilitates consolidation of the following school curriculum subjects:
Art, Design and Technology & Science

Amber's
Rock Art

Can you paint a pebble to make it into a piece of rock art?

Can you guess which creatures I have made my pebbles into below?

You Will Need:

- pebble
- charcoal pencil or fine chalk
- outdoor paint & fine-tipped paint brushes or fine-tipped sharpie pens
- pictures for ideas (provided below)

Method:

- Think about the creature you would like to paint and collect all of your resources.
- You may wish to draw your design on first using a charcoal pencil or fine chalk. Simple is often better!
- Paint background colours and lighter colours first so they do not smudge into darker colours.
- Paint finer details and features on last with a fine-tipped paint brush or sharpie.

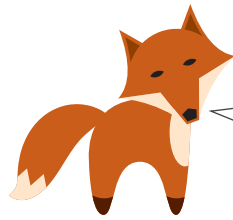

Can you make your own art collection from pebbles?
Can you put them in your garden to brighten up the outdoor space?

This activity facilitates consolidation of the following school curriculum subjects:
Art, Design and Technology & Science

Amber's
Rock Art

Here are some pebbles I painted earlier to give you some ideas, but remember, simple is often better! Can you guess what I painted?
