

My Family inspiration

The person in my family who inspires me is my dad. My dad has inspired from when I was at a young age and will always be inspiring me daily, monthly, yearly. He has always been a big icon to me, he's encouraged me in my football journey and outside of my football journey. He has always given me tips about passing the ball, shooting, running, getting into the right position for a corner a pass or even a offside trap! He has strongly helped in my life since I've set foot in his house, and he has made a big hole in my heart. I had passion for 2 sports when I was young. Football and tennis but when my dad was edging me towards football, I knew I had to make him proud. I was determined to do the thing I love, so well that I play for a professional football team whilst I enjoy the journey of travelling away and home for grassroots and professional matches. Whilst also having fun with my teammates!
